

Functional Features Included

Feature inventory and acceptance checks

Date	30 September 2026
Team ID	SWTID-2026-9380
Project Name	FitBuddy – AI Fitness Plan Generator using Gemini Models
Team	Lavinraj (Team Leader), Subash, Rahul, Hariharansudhan
Maximum Marks	4 Marks

#	Feature	Acceptance check	Status
1	Guided fitness profile	All required fields have labels, ranges and meaningful validation.	Designed
2	Goal-based weekly plan	Output frequency and focus match the selected goal and days.	Designed
3	Session details	Each session includes warm-up, exercises, dosage, rest and cool-down.	Designed
4	Equipment adaptation	Exercises use available equipment or include valid substitutions.	Designed
5	Level adaptation	Volume and complexity remain appropriate for beginner/intermediate/advanced.	Designed
6	Exercise alternatives	At least one easier or equipment-free alternative where practical.	Designed
7	Progression guidance	Plan states when and how to progress or reduce intensity.	Designed
8	Regeneration	Updated preferences create a new version without losing the current form state.	Planned
9	Progress check-in	Completion and difficulty can influence the next generation.	Planned
10	Print/export	Result has a clean printable layout.	Planned
11	Safety boundary	Visible limitations and escalation for pain or medical concerns.	Designed
12	Accessible operation	Keyboard, focus, labels, headings and contrast pass review.	Planned

Note

“Designed” means fully specified in this report. “Planned” requires implementation and test evidence before it can be claimed as complete.
