

Customer Journey Map

From first visit to plan refinement

Date	30 September 2026		
Team ID	SWDIT-2026-9380		
Project Name	FitBuddy – AI Fitness Plan Generator using Gemini Models		
Team	Lavinraj (Team Leader), Subash, Rahul, Hariharansudhan		
Maximum Marks	2 Marks		

Journey element	1. Discover & Profile	2. Generate & Review	3. Follow & Refine
Actions	Opens FitBuddy; enters age range, goal, level, days, session duration, equipment and limitations.	Submits profile; waits for generation; reviews schedule, exercises and guidance.	Completes sessions; records perceived difficulty; requests an adjusted plan.
Touchpoints	Welcome screen, profile form, consent and safety note.	Loading state, plan summary, weekly schedule, exercise details.	Progress check-in, regenerate controls, exported plan.
Thoughts	“Is this private and suitable for me?”	“Can I understand and complete this?”	“Is the plan helping me progress?”
Feelings	Curious but cautious.	Hopeful; needs confidence.	Motivated when progress is visible.
Owner	UX and validation team.	AI integration and plan-formatting team.	Progress and quality team.
Opportunities	Short form, examples, clear required fields.	Predictable response format, alternatives, editable preferences.	Simple feedback loop and version history.
