

Data Flow Diagram

Level-1 logical flow

Date	30 September 2026
Team ID	SWDIT-2026-9380
Project Name	FitBuddy – AI Fitness Plan Generator using Gemini Models
Team	Lavinraj (Team Leader), Subash, Rahul, Hariharansudhan
Maximum Marks	2 Marks

FitBuddy logical solution architecture

Flow	Data carried	Validation / control
User → Profile processor	Goal, level, schedule, equipment, preferences, disclosed limitations	Required fields, ranges, accepted values, input length
Processor → Gemini service	System rules plus minimized user profile	No secrets; no unnecessary personal identifiers
Gemini → Plan engine	Structured plan candidate	Schema, exercise fields, day count, safety wording
Plan engine → Data store	Plan version and selected profile settings	Access control, retention rule, timestamp
Plan engine → User	Weekly schedule, instructions, alternatives and caution note	Escaped output; readable layout; regeneration option
